The Detroit / Wayne County Port Authority Public and Terminal Dock Design and Construction

Presented By:

Charles J. Roarty, Jr., P.E. – NTH Consultants, Ltd.

The Detroit/Wayne County Port Authority has just completed the new public dock and terminal building, located in a prominent area on the Detroit River adjacent to the Renaissance Center. The 250-foot long dock was built offshore to allow sufficient depth for major cruise ships. This project also rehabilitated the existing shoreline, constituting the final linkage to the East Riverwalk between the recently renovated Civic Center and GM Promenades. This presentation will address a variety of design and permitting issues along with challenges during construction. The dock will be used for cruise ships and other important docking on the River.

Date: Thursday November 17, 2011

Agenda:

Site Visit: 11:00 – 12:00
130 E. Atwater, Detroit
Parking – See attached map

Lunch and Presentation: 12:00 – 1:00
